

2025 Training and e-Learning Course Calendar

[Enroll in Courses](#)

Moderated Courses

These courses are offered through the platform with the support of a moderator and a tutor. The moderator ensures all administrative issues are addressed and the tutor provides the technical expertise and answers all questions related to the subject matter.

In a moderated course, the moderator and the tutor meet with the registered learners in a live session for one hour per week for the duration of the course.

One or two modules are released each week and a course has a set time of four to six weeks for completion.

Introduction to Network Operations

- Cycle 1 | 20 January–16 February
- Cycle 2 | 14 July–10 August
- Cycle 3 | 06 October–02 November

Advanced Network Operations 2.0

- Cycle 1 | 20 January–16 February
- Cycle 2 | 14 July–10 August
- Cycle 3 | 06 October–02 November

Encryption

- Cycle 1 | 20 January–16 February
- Cycle 2 | 14 July–10 August
- Cycle 3 | 06 October–02 November

Internet Governance

- Cycle 1 | 20 January–16 February
- Cycle 2 | 14 July–10 August
- Cycle 3 | 06 October–02 November

Fundamentals of Designing and Deploying Computer Networks

- Cycle 1 | 20 January–02 March
- Cycle 2 | 14 July–24 August
- Cycle 3 | 06 October–16 November

Building Wireless Community Networks

- Cycle 1 | 20 January–02 March
- Cycle 2 | 14 July–24 August
- Cycle 3 | 06 October–16 November

- Cycle 4 | 14 October–16 November

Self-Paced Courses

Self-paced courses are offered through the learning management system without a moderator or a tutor. The learner is free to take the courses in their own time and at their own pace. The Mutually Agreed Norms for Routing Security (MANRS) will be offered as a self-paced course in 2025.

Tracks

In 2025, the Internet Society will recognize learners have acquired knowledge and skills by taking more than one course in an area of specialization. When learners successfully complete a track, they earn a certificate of completion and qualify to join our alumni network.

Track 1:

Network Operations Support Specialist (NOSS)

This certification is for those who have completed:

- Fundamentals of Designing and Deploying Computer Networks
- Introduction to Network Operations 1.0
- Advanced Network Operations 2.0
- IPV6 (Offered through partnership)

Track 2:

Community Centered Connectivity Technicians (CCCT)

This certification is for those who have completed:

- Fundamentals of Designing and Deploying Computer Networks
- What the Internet Needs to Exist
- What the Internet Needs to Thrive
- How to Write an Internet Impact Brief

Track 3:

Affordable and Reliable Access Champion (ARAC)

This certification is for those who have completed:

- Introduction to Network Operations 1.0
- Advanced Network Operations 2.0
- Internet Exchange Point (IXP) 2.0

Track 4:

Online Trust & Safety Champion (OTSC)

This certification is for those who have completed:

- Digital Footprints
- Privacy
- Encryption
- Internet Security

Track 5:

Internet Policy and Advocacy Champion (IPAC)

This certification is for those who have completed:

- What the Internet Needs to Exist
- What the Internet Needs to Thrive
- How to Write an Internet Impact Brief
- Encryption
- Internet Governance

Track 6: Offered on Request and Only for government Officers

Government Track-Internet Policy and Advocacy Champion (GIPAC)

This certification is for those who have completed:

- What the Internet Needs to Thrive
- How to Write an Internet Impact Brief
- Government Encryption
- Internet Governance
